DETAILED ACTION

Claims 84-92 are currently pending and are present for examination.

Applicants' amendments and arguments filed on 8-11-06, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Terminal Disclaimer

The terminal disclaimer filed on 12-20-06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,399,336 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Jennifer Walston on 12-15-06.

The application has been amended as follows:

In the claims:

A) In claim 92, line 2, insert the phrase "other than a α 2,3-sialyltransferase" after the term "sialyltransferases".

Allowable Subject Matter

Claims 84-92 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests a method of sialylating a saccharide group on a recombinant glycoprotein using the substrate and enzyme concentrations as claimed in claims 84-92.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
